Over 35 years of service.

March, 7, 2024

XVIII Annual Multidisciplinary international medical congress, NY.

Sponsorship Proposal

Central Theme: The Impact of Climate Change on Physical and Mental Health: Global and Local Perspectives

Introduction:

Climate change is one of the greatest challenges facing humanity, and its effects on human health are becoming increasingly evident. The Hispanic Health Professionals Association, Inc. NY (AHPSI), with over 35 years of service, is organizing a medical congress to analyze the impact of climate change on physical and mental health from global and local perspectives.

Brief Explanation:

Human activities, such as burning fossil fuels, deforestation, and industrial processes, have significantly contributed to the increase of greenhouse gas emissions in the atmosphere. These gases trap heat from the sun, causing a gradual rise in global temperatures, which leads to various environmental changes, including rising sea levels, melting glaciers, and more frequent and severe weather events. These changes in the Earth's climate have far-reaching consequences on human health, both physical and mental.

Congress Overview:

This medical congress will bring together local experts from New York City, other states, and countries to discuss the impact of climate change on physical and mental health. Participants will explore strategies and solutions to
